KEY STRENGTHS

- **GTM Engineer & Revenue Operations generalist** with a software engineering background, building AI-powered workflows that compress pipeline creation cycles and reduce sales friction.
- **Experienced with AI agents and automation:** multi-agent orchestration, RAG, and LLM pipelines for internal workflows (Claude Code plugins, n8n, custom agents).
- **Microsoft Reactor speaker on agentic systems; SnowPro-certified.**

PROFESSIONAL EXPERIENCE

Rainbow Robotics | GTM Engineering Intern

Apr 2026 – Jun 2026

Samsung Electronics affiliate · KOSDAQ-listed B2B robotics manufacturer (~₩12T market cap, ~300 employees)

- Built and deployed a mobile web app (quick-input UX + business-card OCR) **adopted by 26 field reps; consolidated 1,544 leads** across 4 channels into CRM, with **1,104 follow-ups completed within 48h**
- Prototyped an AI-powered outbound system: enriched **1,500 US/EU researcher records** in **2 days** via AI agents, built a lead-scoring model and MS Graph-integrated outreach CRM — moved **outbound start ~3 weeks earlier** than planned
- Built an AI-agent-based briefing system that auto-collects, translates, and classifies global news/PR — significantly **reduced the marketing team's manual monitoring time**
- Joined a cross-functional TF consolidating fragmented SOPs into a **40-page operations manual**, reducing handoff overhead and improving new-hire onboarding

DeepCardio LLC | B2B Sales & Marketing Intern

Oct 2025 – Jan 2026

AI-powered ECG analysis solution for healthcare · early-stage startup (~20 employees)

- Built an automated lead-targeting system (n8n + public-data APIs) compiling **6,000+ qualified medical-provider records**, segmented by hospital size and exam type for higher-conversion focus
- Developed a pre-meeting research tool (Google Apps Script + Gemini API) auto-compiling hospital profiles, physician backgrounds, competitor adoption, and tailored pitch points
- Ran data-driven outbound on high-value deals (tens-of-millions-KRW ACV) using the DB & research tools above — booked **2 of 10 assigned accounts (20%)** and supported a large screening-center contract
- Introduced a RAG-based clinical-paper review workflow, reducing research time; managed LinkedIn strategy (+20% followers, ~50× impressions in 7 days)

POSTECH (MCNL Lab) | Undergraduate Research Intern

Feb 2022 – Aug 2022

Network & P2P blockchain algorithm research

- Built a P2P network testing infrastructure (Docker, Containernet, Python, Go) simulating **70+ nodes; cut test runtime 33% (45→30min)** via parallelized automation
- Authored a 20-page internal technical guide for experiment reproducibility and knowledge handoff

EDUCATION

Korea Aerospace University | B.S. Software Engineering · Cum Laude

Mar 2019 – Feb 2025

PROJECTS

PR Monitor Plugin — Market & PR Monitoring (Claude Code Plugin, OSS) *Jul 2026*

- Solo-built an open-source **Claude Code plugin** — a generalized, public version of an in-house PR-monitoring system — that auto-collects, translates, and classifies **news & PR into competitor/market briefings**

Lingo Bot — Real-Time AI Discord Translator *v1: Apr 2024 · v2: May 2025*

- Built an **internal team tool** (Python, GPT API) used live across game jams; set up **automated GCP deploys** (Terraform, GitHub Actions) with a **<15min deploy cycle**

Open-Source Maintainer — Python Game-Engine Modules (Ren'Py) *Jun 2023 – Mar 2025*

- Built and maintained **5 open-source Python modules** extending the Ren'Py game engine — **800+ downloads**, featured on the curated GitHub “Awesome” list; resolved **45+ community issues/inquiries** in English

HANZOOM — Service Design & Business Proposal (Pre-startup Project) *2023-2024*

- Led market research and user validation for a foreign-resident platform; pitched to accelerators ([view proposal](#))

OTHERS

Awards & Certifications

- **Microsoft Reactor: Agents League** — *1 of 3 Globally Selected Reps & Speaker* *Feb 2026*
- **SnowPro Associate Certification** (Snowflake) *Jan 2026*
- **Azure AI Developer Hackathon** — *Design Award · top 3% of 183 teams* *Apr 2025*
- **LilysAI** — *Product Ambassador* *Sep 2025 – Apr 2026*

Training & Systems Programming

- **42 Seoul** | *Systems Programming Trainee · 6 C projects, 100+ peer reviews* *Apr 2021 – May 2022*

Technical Proficiencies

- **SalesOps & GTM Processes**: AI lead scoring, CRM prototyping, lead & data pipelines, outbound automation, SOP/process design
- **AI & Automation**: Multi-agent orchestration, RAG, LLM API integration (Claude, GPT, Gemini), Claude Code, n8n, Make, Google Apps Script (GAS)
- **Engineering & Cloud**: Python, JavaScript, SQL, Bash, Docker, Terraform, CI/CD, Azure, GCP
- **Tools & Languages**: Salesforce, Notion, Markdown, Git · Korean (native), English (professional)
