SUMMARY

B2B Sales junior with a software engineering background. Proven field outbound execution (20% prospect-to-meeting conversion), lead qualification (MQL→SQL), and CRM/data pipeline building. Brings technical credibility to translate complex product capabilities into customer value — supporting deal progression from first contact to AE handoff. Seeking a technical sales role where business development instincts and technical fluency drive revenue.

PROFESSIONAL EXPERIENCE

Rainbow Robotics | Sales Enablement Intern

Apr 2026 – Jun 2026

Samsung Electronics affiliate · KOSDAQ-listed B2B robotics manufacturer (~₩12T market cap, ~300 employees)

- **Enabled field sales efficiency** — Built a mobile lead-capture web app (OCR + quick-input UX) adopted by 26 sales reps at a trade show; consolidated 1,544 leads across 4 channels into CRM, with 1,104 follow-ups completed within 48 hours
- **Accelerated outbound pipeline creation** — Prototyped an AI-powered outbound system that enriched 1,500 US/EU researcher records in 2 days with lead scoring; shortened the outbound launch timeline by ~3 weeks
- **Supported strategic decision-making** — Developed an AI-agent-based market/PR monitoring system that auto-collected and classified global news, reducing manual intelligence-gathering time for the strategy team
- **Improved sales operations** — Joined a cross-functional TF to consolidate fragmented SOPs into a 40-page operations manual, reducing handoff overhead and improving new-hire onboarding

DeepCardio LLC | B2B Sales (SDR/BDR) Intern

Oct 2025 – Jan 2026

AI-based ECG analysis solution for healthcare · early-stage startup (~20 employees)

- **Built a 6,000+ lead database from scratch** — Automated nationwide medical provider targeting (n8n + public-data APIs) by hospital size and exam type; OCR'd manual event lists and structured the first lead management system (Excel-based CRM) for the sales team
- **Ran cold field outbound and secured qualified meetings** — Visited 10 screening centers unannounced; navigated past gatekeepers to secure 2 decision-maker meetings (20% conversion) within 2 weeks. 1 deal progressed to close within 1 month post-handoff to AE
- **Cut pre-visit research time by ~50%** — Built a Google Apps Script + Gemini API tool that auto-compiled hospital profiles, physician backgrounds, competitor adoption status, and tailored pitch points — enabling faster, more personalized outreach preparation
- **Accelerated sales content creation** — Introduced a RAG-based clinical literature review workflow that reduced research time for evidence-backed sales collateral
- **Supported channel engagement** — Managed LinkedIn/YouTube content strategy, achieving 50× impressions and +20% followers in 7 days, generating 2 inbound B2B collaboration inquiries

POSTECH (MCNL Lab) | Undergraduate Research Intern

Feb 2022 – Aug 2022

Network & P2P blockchain algorithm research

- **Built an automated network test environment** (Docker, Python, Go; 70+ nodes) and authored a 20-page internal technical guide for experiment reproducibility.
